

## Experience

### Nomi

**Engineer** *New York, NY* April 2014 - October 2015  
Member of frontend engineering team responsible for stack architecture, program design, development, and maintenance of client-facing SAAS application interfaces. Personally worked to select and implement the frontend tech stack for a full, ground-up SPA in HTML5, SCSS, and ES2015 Javascript, with Linux and Node build tools. Select technologies include React, Flux, Babel, Mocha, and Gulp.

### NorthPoint Digital

**Consultant** *New York, NY* October 2012 - April 2014  
Stack agnostic web development and consultancy. Focused on direct client interaction and responsive, high-performance enterprise development. Technologies included Javascript, C#, PHP, Microsoft .NET, Apache, Solr, Drupal, Ektron, and Sitecore. Notable projects included sites for MIT Sloan Business School ([mitsloan.mit.edu](http://mitsloan.mit.edu)) and Children's Hospital of the King's Daughters ([chkd.org](http://chkd.org)).

### Hearts On Fire

**Engineer** *Boston, MA* August 2012 - October 2012  
Sitecore development in C# for HeartsOnFire.com. Integrated AJAX forms, Sitecore templates, Microsoft Dynamics (CRM), and social network APIs (Facebook et al.), and migrated legacy Visual Source Save VCS instance into SVN.

### Ektron, Inc.

**Engineer** *Nashua, NH* February 2011 - August 2012  
Responsible for full-stack implementation and maintenance of client sites built on Ektron CMS. Additionally, delivered on-site and remote developer training sessions on Ektron's products and APIs. Technologies included C#, PHP, Javascript, and Ektron. Notable projects included Kodak.com and Covidien.com.

### River Cardroom

**Poker Dealer** *Milford, NH* May 2010 - February 2011  
Dealt tournament and cash Texas Hold'em, as well as a variety of other casino table games. Additionally maintained cardroom website and weekly marketing email, and created media for mailers, pamphlets, and billboards.

### College of Wooster

**Web Manager** *Wooster, OH* November 2007 - May 2010  
Oversaw student content assistant team responsible for migrating existing static HTML site into Sitecore CMS.

## Max P. Rafferty

### Language agnostic full-stack software engineer

Frontend technology specialist. Proven professional experience in frontend stack architecture, cutting-edge best-practice web development, mobile-first responsive UX, and developer advocacy and training

## Education

### Summer Coursework, Harvard University

Studied Algorithms and Data Structures under Dr. Michael D. Mitzenmacher. Coursework completed 2008.

### Bachelor of Arts, College of Wooster

Major: Computer Science

Minor: Studio Art

Attended 2006 - 2010. Senior thesis passed with honors, published as M. Rafferty and S. Visa. BitTorrent-Enhanced Distributed Internet Caching (BEDIC) in Proceedings of the 2010 Midstates Conference for Undergraduate Research in Computer Science and Mathematics, Springfield, 2010, pp 49-57.

## Skills

<b>Environments</b>	Server administration in Windows and *ix environments. Comfortable in all desktop environments.
<b>Languages</b>	Master level Javascript (ES5, ES2015 (formerly ES6)). Professional experience in C#, Visual Basic, PHP, and Python. Hobby experience in C++, Lisp, Go, Ruby, and Coffeescript. Educated in C, Java, and Basic.
<b>Tools</b>	Comfortable with standard *nix tools. Frontend tools include Gulp, Grunt, Babel, SCSS, LESS, Browserify, Webpack, Google Closure, ESLint, Intern, Jest, Mocha, and Chai, all via Node. Comfortable working in virtualized environments and in UNIX containers (Docker). Comfortable working within and configuring CI and build automation (circleCI, Jenkins, Solano, Travis).
<b>VCS</b>	Strongly prefer Git and GitHub. Experience with SVN, Team Foundation, and VSS.
<b>Frameworks</b>	Strongly prefer React. Professional experience with Angular, Durandal (Knockout), and Backbone. Eagerly await the day IE9 is no longer a requirement so that Polymer can be on this list.
<b>Libraries</b>	Strongly prefer Lodash (Underscore). Very familiar with JQuery (though you might not need it!). Comfortable with Bootstrap and Foundation.
<b>Issue-Tracking</b>	Very comfortable in JIRA and working with JIRA Agile tools. Experience with Pivotal, GitHub Issues, TFS, and Trello.
